Secretary of State
Annual Report to the Legislature on Student Voter Registration

California Elections Code (EC) section 2146(d) requires the Secretary of State to submit an annual report to the Legislature on student voter registration efforts the office has undertaken pursuant to the Student Voter Registration Act of 2003. It is the Legislature's intent that every high school and college student receive a voter registration application with his or her diploma and that every school do all in its power to ensure students are provided the opportunity to apply to register to vote.

EC section 2146 requires every California Community College (CCC) and California State University (CSU) campus that operates an automated class registration system to, in coordination with the Secretary of State, permit students during the class registration process to receive a voter registration application that is preprinted with personal information relevant to voter registration. Under the law, the University of California (UC) is encouraged to comply with the section.

The Secretary of State launched an electronic fillable voter registration application in 2009 for students to fill out online, print at home or on campus, sign and mail directly to their county elections official. The appropriate county elections official's address was automatically added to the form based on the voting address provided by the applicant. Every CCC, CSU, and UC campus, regardless of the type of class registration system the school has in place, was able to link to the dedicated website established by the Secretary of State. In September 2012, the Secretary of State launched California's online voter registration application system allowing people to electronically submit their entire voter registration application, including their signature on file with the Department of Motor Vehicles, via a secure infrastructure developed by Secretary of State.

The Student Voter Registration Act of 2003 also requires the Secretary of State to provide every high school, CCC, CSU and UC campus with voter registration applications. As stated in this office's January 1, 2009, annual report to the Legislature, the previous implementation of this program, where voter registration applications were automatically mailed to each high school and college campus based solely on the number of 17- and 18-year-old students enrolled, was not cost effective. In 2008, the Secretary of State's office printed and mailed over 2.5 million student voter registration applications to high school and college campuses and only 16,489, or 0.66%, were completed by students wishing to register to vote and returned to the Secretary of State. The average cost of a returned student voter registration application was \$12.68.

Since 2009, given the cost of the program, and feedback from many schools that they did not need additional voter registration applications, the Secretary of State's office has been proactively contacting all public and private high schools, and all CCC, CSU, and UC campuses to ask how many, if any, voter registration applications the campuses would like to receive.

In 2014, of the 203 responses from high schools, 139 requested voter registration applications. Of the 43 responses at the college level, 10 CCC and 2 CSU campuses requested voter registration applications. The cost of mailing the student voter registration applications to high

schools and college campuses in 2014 was approximately \$747.00. The cost for return postage of the voter registration applications was \$1,376.00.

As part of the Secretary of State's outreach to high schools, all campuses were encouraged to provide a link on their school website to the Secretary of State's online voter registration application, "RegisterToVote.ca.gov." This site, though it does not track the number of students who utilize it, is virtually identical to the site created for the CCC, CSU, and UC campuses under EC section 2146, providing students and staff with the ability to complete a voter registration application online. In response to the Secretary of State's request to add this link, 82 high schools reported posting the link to the online voter registration application on the school's website.

Attachment A reflects voter registration data for 2014 pursuant to the Student Voter Registration Act of 2003 and compares that data from similar reports provided for 2013 and 2012.

¹ Students are not required to enter school identifying information as part of the voter registration application process.

² Additionally, 82 high schools reported that they offered the Secretary of State's online voter registration application to students and staff by placing the link RegisterToVote@sos.ca.gov on the school's website.

³ The student voter registration application distribution process is completed during the fall of each year. Therefore, the number of applications returned each year is most likely a result of the previous year's mailing.
