Secretary of State
Annual Report to the Legislature on Student Voter Registration

California Elections Code section 2146(d) requires the Secretary of State to submit an annual report to the Legislature on student voter registration efforts the office has undertaken pursuant to Article 3.5 of the Code, the Student Voter Registration Act of 2003. The Act states it is the Legislature's intent that every high school and college student receive a voter registration form with their diploma and that every school do all in its power to ensure students are provided with the opportunity to register to vote.

SB 854 (Ridley-Thomas), Chapter 481, Statutes of 2007, amended Elections Code section 2146 to require every California Community College (CCC) and California State University (CSU) that operates an automated class registration system to, in coordination with the Secretary of State, permit students during the class registration process to receive a voter registration form that is preprinted with personal information relevant to voter registration by January 1, 2010. Under the law, the University of California (UC) is encouraged to comply with the section.

The Secretary of State launched an online fillable voter registration application in 2009 for students to fill out online, print at home or on campus, sign and mail directly to their county elections official. The appropriate county elections official's address was automatically added to the form based on the voting address provided by the applicant. Every CCC, CSU, and UC campus, regardless of the type of class registration system the school has in place, was able to link to the dedicated website established by the Secretary of State. In September 2012, the Secretary of State launched California's online voter registration application system allowing people to electronically send their entire voter registration application, including their signature on file with the Department of Motor Vehicles, via a secure infrastructure developed by the Secretary of State.

The Student Voter Registration Act of 2003 also requires the Secretary of State to provide every high school, CCC, CSU and UC campus with voter registration forms. As stated in this office's January 1, 2009, annual report to the Legislature, the previous implementation of this program, where voter registration forms were automatically mailed to each high school and college campus based solely on the number of 17- and 18-year-old students enrolled, was not cost effective. In 2008, the Secretary of State's office printed and mailed over 2.5 million student voter registration forms to high school and college campuses and only 16,489, or 0.66%, were completed by students wishing to register to vote and returned to the Secretary of State. The average cost of a returned student voter registration form was \$12.68.

Given the cost of the program, the budget reductions the Secretary of State's office was required to absorb, and feedback from many schools that they did not need additional voter registration forms, the Secretary of State's office in 2009 began proactively contacting all public and private high schools, and all CCC, CSU, and UC campuses to ask how many, if any, voter registration forms the campuses would like to receive.

In 2012, of the 234 responses from high schools, 165 schools requested voter registration forms. Of the 42 responses from CCC, CSU and UC campuses, only 16 CCC campuses requested voter registration forms. The cost of mailing the student voter registration forms to high schools in 2012 was approximately \$873.00. The cost for return postage of the voter registration forms was \$6,099.25.

In addition, all high schools contacted were encouraged to provide a link on their school website to the Secretary of State's online voter registration website, "RegisterToVote.ca.gov." This site is virtually identical to the site created for the CCC, CSU, and UC campuses under SB 854, providing students and staff with the ability to fill out a voter registration application online.

Attachment A reflects voter registration data for 2012 pursuant to the Student Voter Registration Act of 2003 and compares that data from similar reports provided for 2010 and 2011.

Readers will note the drop in registrations from 2010 to 2011 and the rise in registrations from 2011 to 2012. Historically, voter registration numbers fluctuate based on the number of, and interest in, the elections held in a given year. There were no statewide elections in 2011, but there was a marked increase in registration in 2012 given that it was a presidential election year and there were two statewide elections.
