¹ The processing times shown for the first and final day of the reporting period are snapshots in time. Processing times, in the form of business days, are tracked on a daily basis throughout the reporting period and from that information, the average processing time for the month is calculated. Throughout the month, the processing times fluctuate daily depending on the number of documents received each day (some days have higher volumes than others) and the number of documents processed.

For the month of January 2018, Business Entities is reporting an average of 10 business days and is now in the midst of the peak filing period, which will continue at least through March. Staff continues to work overtime to process documents as quickly as possible and resources have been reallocated to the review of submissions but maintaining the 5 business day processing during this peak filing period is challenging with the increased workload.
