¹ The processing times shown for the first and final day of the reporting period are snapshots in time. Processing times, in the form of business days, are tracked on a daily basis throughout the reporting period and from that information, the average processing time for the month is calculated. Throughout the month, the processing times fluctuate daily depending on the number of documents received each day (some days have higher volumes than others) and the number of documents processed. COVID-19 Shelter at Home Executive Order has had an impact on our processing times. We are focusing on online services, registrations, and statements of information in hopes of helping the California economy. California Business Connect launched Corporation Formations Online on April 21, 2020 and is helping with the Business Entities registration processing times.
