January 15, 2020

The Honorable Holly Mitchell, Chair
The Joint Legislative Budget Committee
1020 N Street, Room 553
Sacramento, CA 95814

Dear Senator Mitchell:

In accordance with the Supplemental Report of the 2014-15 Budget Package, Item 0890-001-0228, attached is my office’s quarterly report on the progress of the California Business Connect project. If you have any questions about this report, please feel free to contact me at (916) 653-7244, or have your staff contact my Chief of the Business Programs Division, Betsy Bogart, at (916) 695-1197.

Sincerely,

Alex Padilla
Secretary of State

Attachment

cc: Ms. Erika Contreras, Secretary of the Senate
Ms. Diane Boyer-Vine, Legislative Counsel
Introduction
The “Supplemental Report of the 2014-15 Budget” of the Legislative Analyst’s Office requires the Secretary of State (SOS) to provide a quarterly report on the progress of the California Business Connect (CBC) project on or before October 15, 2014, and on or before every January 15, April 15, July 15, and October 15, thereafter, to the chairs of the Joint Legislative Budget Committee and the fiscal committees of the Legislature. The SOS also is required to certify whether the SOS: (a) anticipates making or has made any changes to the project’s scope, schedule, or budget; and (b) believes there are any problems that would preclude meeting the approved project schedule and budget. This reporting requirement will end upon the completion or termination of the CBC project.

Background
The CBC project is intended to change how people interact with the Business Programs Division (BPD) of the SOS’s office. The CBC project solution affects nearly every BPD process, including most of the business filings for corporations, limited liability companies, limited partnerships, and other statutorily-required trademark and Uniform Commercial Code filings. The CBC project has delivered online filing functionalities to replace several of these paper driven filing processes. CBC’s online presence is growing. See Customer Benefits, below.

CBC is an integrated automated solution that has configurable components requiring minimal customization, while still being robust, secure, and easy to operate and maintain. In the new CBC environment, the processes will be almost entirely paperless, with many of the filings and requests for information completely automated through online services.

January 2020 Report
Special Project Report (SPR) #3 split the project development into 4 modules, and each module into 1 to many sub-projects. The CBC team is fully engaged in development of business application solutions towards the project goals. With every release of a new online tool, the Secretary of State is making it easier to do business in California.

Module 1: Business Entities (BE) Forms
A development team is currently working on the last Module 1 online filing, Corporation Formations. Corporation Formations has a planned release in April 2020 (after the election freeze). Once Corporation Formations is complete, Module 1 will move into Maintenance and Operations.

Module 2: Trademarks/Service Marks
This module is complete (as of 10/8/2019) and is currently part of Maintenance and Operations.

Module 3: Uniform Commercial Code (UCC)
KPMG contractors with SOS Subject Matter Expert (SME) guidance are installing and configuring the Tecuity “SOS Enterprise – UCC Module” software purchased by the SOS in January 2019. This team is on schedule to finish on or before the planned milestone date (7/17/2020) listed in SPR #3.
Module 4: BE Features

The Certificates of Status sub-project delivery timeline has been extended to the spring of 2020. The sub-project is currently on track for a soft launch in March 2020, and a public launch in the beginning of April 2020.

On 10/28/2019, the project sponsors made a strategic decision to exercise the BE Option in the current UCC vendor contract. Exercising this option will allow the project to procure services for the installation and configuration of Tecuity SOS Enterprise Software for Module 4: Business Entities Features including Limited Liability Companies, Limited Partnerships and Corporations. This change will be included in the Special Project Report #4, that is being created at the time of this report and will be submitted to control agencies and the legislature for approval.

Special Project Report (SPR) #4

The SOS is planning to release SPR #4 to California Department of Technology (CDT) by 1/17/2020. This SPR #4 will address the differences in cost from SPR #3 regarding the estimates for System Integrator(s), Hardware, Software, Maintenance and Operations (M&O), and Staffing and Benefits. Now that the UCC software has been purchased, and the Module 3: Uniform Commercial Code install and configuration RFO costs are known; the estimated costs identified on the SPR #3 Economic Analysis Workbook (EAW) are being adjusted to represent actual costs as known through FY 2018/19 in SPR #4. In addition, as the project has continued to mature, the required Staffing and Benefit costs are being adjusted with lower actual costs for FY 2017/18 and FY 2018/19; and more accurate estimates for FY 2019/20 and FY 2020/21. SPR #4 also provides details for the implementation of Module 4: Business Entities Features as described above.

CBC Project Progress to Date

The 2nd Anniversary of Secretary of State’s bizfile California Portal took place in June 2019. This portal supports the Secretary of State’s digital initiative to automate the divisions thus making it easier to do business in California. bizfile California is growing as we add more California Business Connect online services.
