<sup>1</sup> The processing times shown for the first and final day of the reporting period are snapshots in time. Processing times, in the form of business days, are tracked on a daily basis throughout the reporting period and from that information, the average processing time for the month is calculated. Throughout the month, the processing times fluctuate daily depending on the number of documents received each day (some days have higher volumes than others) and the number of documents processed. Due to the COVID-19 pandemic and the rise in COVID cases in California, we continue to have limited staff in the office at a given time. We continue to focus on online services, registrations, and statements of information to continue to support the California economy. We launched the final phase of California Business Connect on April 7, 2022, adding Business Entities to bizfileOnline.sos.ca.gov. We are working through issues that have arisen post launch and continue to work on processing times.
