¹ The processing times shown for the first and final day of the reporting period are snapshots in time. Processing times, in the form of business days, are tracked on a daily basis throughout the reporting period and from that information, the average processing time for the month is calculated. Throughout the month, the processing times fluctuate daily (potentially higher or lower than the processing times noted at the beginning and/or end of the month) depending on the number of documents received each day (some days have higher volumes than others) and the number of documents processed. We continue to focus on online services, registrations, and statements of information to continue to support the California economy. Business Entities (BE) being added to bizfileOnline.sos.ca.gov in April 2022 have helped our BE and Statement of Information turnaround times, especially during our peak filing season.

² Documents processed include Preclear/Expedites processed.
