Description of the Data4

About the California Secretary of State

The California Office of the Secretary of State is committed to adhering to the highest standards of integrity and transparency, supporting businesses, strengthening democracy, protecting individual rights, preserving our state's history, delivering quality services, and providing accessible resources and trusted information.

The California Secretary of State's responsibilities include:

- Serving as the state's Chief Elections Officer
- Implementing electronic filing and Internet disclosure of campaign and lobbyist financial information
- Maintaining business filings
- Commissioning notaries public
- Operating the Safe at Home confidential address program
- Maintaining the Domestic Partners and Advance Health Care Directive Registries
- Safeguarding the State Archives
- Serving as a trustee of the California Museum

Background

The Voter's Choice Act (VCA), established by Senate Bill 450 (Allen, Hertzberg, et al., Chapter 832, Statutes of 2016), aims to enhance voting accessibility in California. This legislation introduces a voter-centered model designed to increase electoral participation and provide voters with more flexible options for civic engagement.

Key features of the VCA's modernized election system include:

- Automatic mail-in ballots for all active, registered voters
- Extended in-person early voting periods of up to 10 days
- County-wide vote centers allowing ballot casting at any location within the voter's county
- Convenient, secure ballot drop box locations throughout each county

To implement this system, the VCA mandates that counties develop a comprehensive Election Administration Plan (EAP). This plan serves two primary purposes:

1. Informing voters about their expanded voting options
2. Outlining strategies for voter education and community outreach

The VCA emphasizes community involvement in the electoral process. It requires county election officials to actively seek and incorporate community input in planning and administering elections, ensuring that diverse voices are heard in shaping local voting systems.

Introduction

This summary provides an overview of vote center usage in Voter's Choice Act (VCA) counties during the 11-day voting periods leading up to and including Election Day across seven recent statewide elections. These elections include: the 2020 Presidential Primary, 2020 General, 2021 Gubernatorial Recall, 2022 Primary, 2022 General, 2024 Presidential Primary, and 2024 General Elections.

Our analysis is part of an ongoing evaluation of the Voter's Choice Act and focuses on county-level vote center activity. At the time of Secretary of State Shirley N. Weber, Ph.D.'s appointment on January 29, 2021, 15 counties had adopted the VCA model. That number has since grown to 29 counties.

Description of the Data

This document analyzes data from elections held between 2020 and 2024, a period marked by the steady expansion of Voter's Choice Act (VCA) counties across California. To provide better context, this report includes not only the raw number of vote center voters but also the percentage of those votes relative to the county's total votes cast in the election.

County-level data is sourced from VoteCal, the Secretary of State's centralized voter registration database. Data was collected based on when each county transitioned to the VCA model.

The first VCA election occurred in 2018 with five participating counties. By 2020, 15 counties had adopted VCA, with approximately 10.4 million registered voters in VCA counties during the Presidential Primary and 11 million during the General Election. In 2022, that number rose to 27 counties, with about 16.8 million registered voters for both the Primary and General Elections. By 2024, 29 counties were participating, with roughly 17.2 million registered voters in the Presidential Primary and 17.6 million in the General Election.

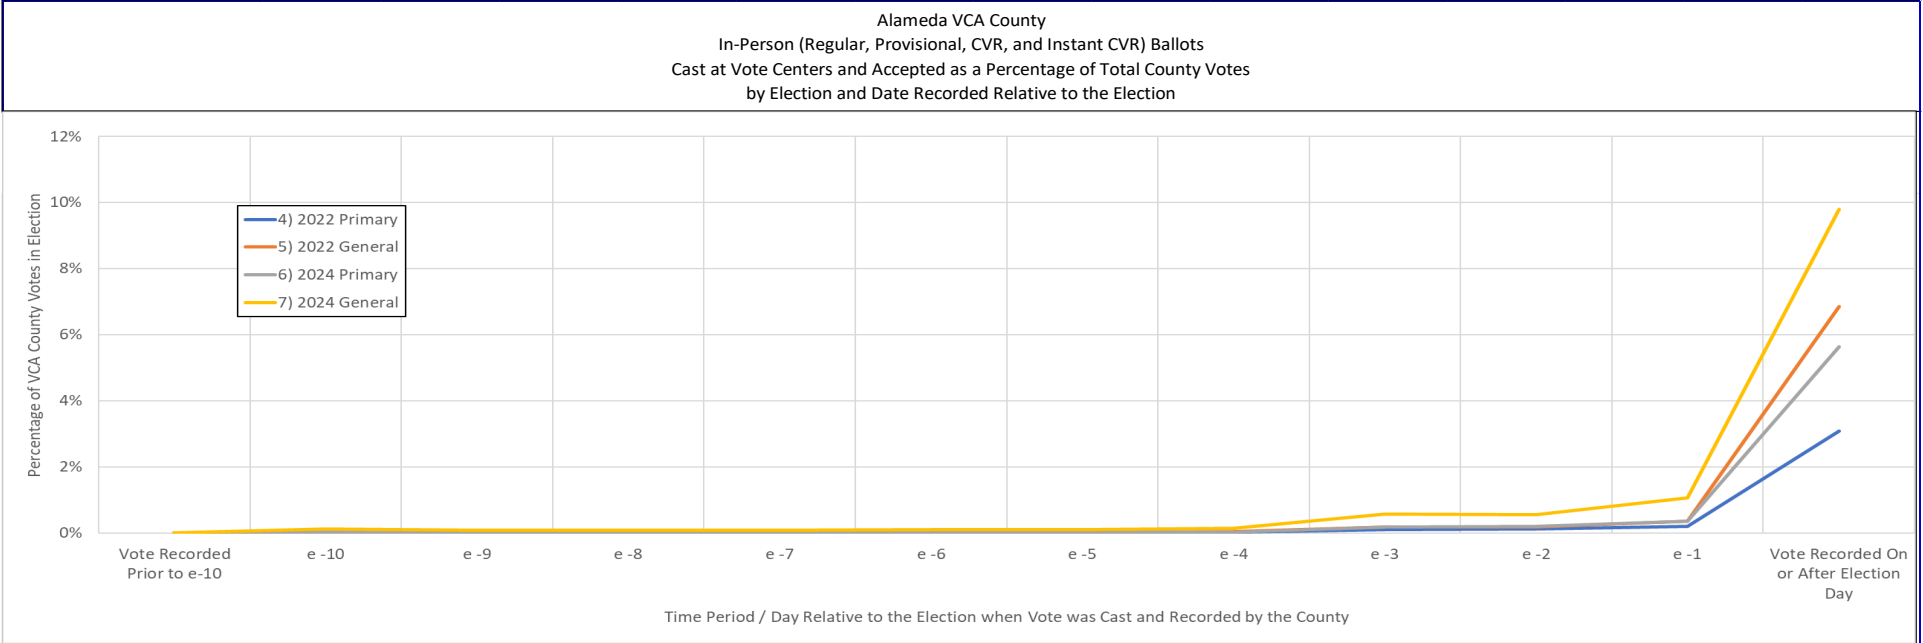

All figures presented in this report are approximate and derived from publicly available VoteCal data published by the California Secretary of State.

Interpretive Note

While this summary presents observed patterns of voter usage of vote centers across counties, it does not assess the causes of that usage. The data are descriptive and do not support causal conclusions about the impact of the Voter's Choice Act. Additional research using appropriate methods would be required to determine

⁶ Regular, Provisional, CVR, and Instant CVR Ballots cast at Vote Centers and accepted as a percentage of total County votes.

NOTE: Some entries in the VoteCal system may appear to show voter activity occurring after the close of polls on Election Day. This is not evidence of ballots being cast after the election has ended. Rather, these timestamps reflect when data was transmitted to or recorded by VoteCal—not when the voting itself occurred. For the sake of transparency and data integrity, these records were not retroactively reassigned to Election Day, as doing so would obscure the distinction between actual voting activity and the administrative timeline of data reporting.

¹⁴ Regular, Provisional, CVR, and Instant CVR Ballots cast at Vote Centers and accepted as a percentage of total County votes.

NOTE: Some entries in the VoteCal system may appear to show voter activity occurring after the close of polls on Election Day. This is not evidence of ballots being cast after the election has ended. Rather, these timestamps reflect when data was transmitted to or recorded by VoteCal—not when the voting itself occurred. For the sake of transparency and data integrity, these records were not retroactively reassigned to Election Day, as doing so would obscure the distinction between actual voting activity and the administrative timeline of data reporting.

²⁰ Regular, Provisional, CVR, and Instant CVR Ballots cast at Vote Centers and accepted as a percentage of total County votes.

NOTE: Some entries in the VoteCal system may appear to show voter activity occurring after the close of polls on Election Day. This is not evidence of ballots being cast after the election has ended. Rather, these timestamps reflect when data was transmitted to or recorded by VoteCal—not when the voting itself occurred. For the sake of transparency and data integrity, these records were not retroactively reassigned to Election Day, as doing so would obscure the distinction between actual voting activity and the administrative timeline of data reporting.

²⁷ Regular, Provisional, CVR, and Instant CVR Ballots cast at Vote Centers and accepted as a percentage of total County votes.

NOTE: Some entries in the VoteCal system may appear to show voter activity occurring after the close of polls on Election Day. This is not evidence of ballots being cast after the election has ended. Rather, these timestamps reflect when data was transmitted to or recorded by VoteCal—not when the voting itself occurred. For the sake of transparency and data integrity, these records were not retroactively reassigned to Election Day, as doing so would obscure the distinction between actual voting activity and the administrative timeline of data reporting.
